## **Call for Collaborative Research Projects on the Brain**

**An initiative from CQDM and Brain Canada Foundation**

**UP TO \$1.6 MILLION AVAILABLE TO SUPPORT COLLABORATIVE BRAIN RESEARCH PROJECTS**

**Deadline to participate in the selection round with a Full Application: 17:00 ET on June 10, 2026**

*(Please note that you must notify CQDM no later than 17:00 ET on June 3, 2026 of your intention to submit a Full Application)*

Brain Canada Foundation (Brain Canada) and CQDM are joining forces to support **interprovincial** collaborative biopharmaceutical research and development (R&D) projects on the **brain**. This partnership creates a unique funding opportunity that brings together experts from academia and industry to support the development of platforms, tools and biopharmaceuticals that will pave the way for new advances in the prevention, diagnosis and treatment of brain disorders.

### **SCOPE AND RESEARCH AGENDA**

This CQDM and Brain Canada initiative specifically focuses on brain research relevant to biopharmaceutical applications. The intent of the initiative is to:

- Increase research collaborations and partnerships between universities and companies in the life sciences industry in Quebec and other Canadian provinces and territories to improve the prevention, diagnosis and treatment of brain disorders.
- Foster technological maturation and industrial value creation leading to economic benefits for the project's stakeholders, Quebec and the rest of Canada.
- Promote the knowledge, capabilities and new technologies developed in public institutions, and facilitate uptake by industry.

### **EQUITY, DIVERSITY AND INCLUSION**

Evidence clearly shows that increasing equity, diversity, and inclusion (EDI) in research environments enhances excellence, innovation, and creativity. CQDM and Brain Canada are committed to excellence through equity and encourage applicants of diverse backgrounds to apply to this funding opportunity, which will promote the expression of diverse perspectives, approaches, and experiences, including those of underrepresented groups.

## CALENDAR

Call for applications	March 11, 2026
Deadline to notify CQDM of intent to apply	June 3, 2026
Full Application deadline	June 10, 2026 at 17:00 ET
Notice of decision to applicants	October 2026
Funding start date	March 1, 2027

## ELIGIBILITY CRITERIA

### Eligible Applicants:

- Investigators must be affiliated with and conduct research at an eligible Canadian institution, [as defined by CIHR](#), for the full duration of the grant.
- The principal investigator must be based at a **research institution in Quebec** (university and affiliated hospital, research institute, public research center). They must work in close collaboration with at least one other independent researcher working in a **research institution in another Canadian province or territory**, as well as with at least one **Quebec company**. **Please note:** College Centers for the Transfer of Technology [CCTT] and public laboratories funded by the federal government (such as the NRC) are not eligible to serve as the *host* institution, but team members and co-investigators from these institutions may receive up to 50% of the total budget as sub-sites under certain conditions. Please contact CQDM to confirm eligibility before applying.
- Investigators must be considered an independent researcher at their institution. Such an individual normally holds the rank of assistant, associate, or full professor; can initiate and direct their own independent lines of research as principal investigator; has full responsibility for running their research group; has full control of their research funds; and is permitted to supervise trainees (if applicable, as per their institution's policy). Postdoctoral fellows or adjunct faculty are not eligible to apply.

### Eligible Projects:

- Research teams must include a minimum of two independent researchers, one from a research institution in Quebec and one from a research institution in another Canadian province or territory.
- R&D projects with biopharmaceutical industrial impact applicable to neuroscience, including the conduct of clinical studies.
- The technology readiness level must be between 1 and 6 at the start of the project.
- Socio-economic benefits must be generated for all of Canada and for the company partners involved in the project.
- At least two trainees (Master's student, PhD student, and/ or postdoctoral fellow) must take part in the project, at least one of whom must be based in Quebec.

## FUNDING

Financial contribution from  
Avec le financement de

Health  
Canada

Santé  
Canada

### Grant Duration

Minimum 1 year, maximum 3 years

### Funding start date

March 1, 2027 at the latest

### Budget

The total project budget should be between \$500,000 and \$1M \* ;

Between 20% and 30% of eligible expenses from the total budget submitted must be incurred by at least one research institution in a Canadian province or territory other than Quebec.

\*Project size comprised between 1M\$ and 3.75M\$ are eligible. However, expenses exceeding 1M\$ will receive reduced financial support. Contact CQDM for more details.

### Funding details

The combined financial support from CQDM and Brain Canada for eligible projects expenses will vary between 78-82% depending on the percentage of research expenses in Quebec versus outside of Quebec.

In addition, at least one eligible Quebec SME\* must contribute to the funding with a cash contribution. The expected contribution of the SME may vary according to the proposed activities and financing structure, but may not represent less than 20% of eligible expenses *in Quebec*. In-kind contributions are not eligible for the matched funding calculation.

- To be eligible, an SME must:
  - Have a significant participation in the project;
  - Have 249 employees or less.
  - Have a place of business in Quebec, be legally constituted according to the federal or Quebec laws in force and be registered with the Quebec Enterprise Register no later than the time of project selection notification in October 2026;
  - Have R&D and/or production activities in Quebec;
  - Have secured the funds required to cover its contribution no later than the time of project selection notification in October 2026.

A portion of the required funding may come from other sources, including Canadian and foreign companies and not-for-profit organizations. Ministère de l'Économie, de l'Innovation et de l'Énergie (MEIE) government contributions and Mitacs funding cannot be matched in this call for projects. Federal government funding sources may be used in specific circumstances – contact CQDM for more details.

\*Projects involving a company with more than 250 employees are eligible. However, CQDM's financial support may be reduced. Contact CQDM for more details.

## ELIGIBLE EXPENSES

Only expenses incurred by Canadian research institutions are eligible:

- Fellowships and wages for research personnel assigned to the project (technicians, research assistants and associates, postdoctoral fellows and students);
- Laboratory equipment, consumables and supplies, as well as animal facilities and platform fees;
- Travel expenses (project-related travel, collaborations, conferences, etc.) and knowledge dissemination costs.
- Intellectual property costs (patent applications, patent maintenance fees for the duration of the project). Please note that costs related to intellectual property must be incurred by a research institution in Quebec to be eligible.
- The rental or purchase of small equipment of a maximum value of \$25,000 per item.
- Some subcontracting expenses to Quebec companies that are not partners in the project can be authorized when the activity is essential to the project and cannot be performed by the research institution.

The following expenses are **not** eligible:

- Expenses incurred by partner companies.
- Purchase or rental of equipment worth more than \$25,000. If the value exceeds \$25,000, the entire expense is ineligible.
- Salary of the principal investigator (PI), co-investigators, or any team members holding an independent academic or research position.
- Indirect and overhead costs. However, these costs may apply to some financial contributions to the project, including the partner company's contribution.
- Intellectual property costs incurred by a research institution outside Quebec or by the partner company.

Please note that this list is not exhaustive and that CQDM and Brain Canada must be consulted on expenses that are not listed here to determine the eligibility of other categories of expenditure. Applicants are encouraged to contact CQDM before the deadline to confirm the eligibility of expenses.

## APPLICATION PROCESS

Financial contribution from  
Avec le financement de

Health Canada Santé Canada

## **Deadline for the Full Application: 17:00 ET on June 10, 2026**

Please note that you must notify CQDM no later than 17:00 ET on June 3, 2026 of your intent to submit an application (see point 2 below).

### **Steps for submitting an application:**

1. Contact [Mathieu Paquette](mailto:mpaquette@cqdm.org), Director - Business Development, Team Lead Québec, to validate the eligibility of your project and obtain the application forms at the following address: [mpaquette@cqdm.org](mailto:mpaquette@cqdm.org).
2. Submit a half-page non-confidential scientific summary (including the project title, the names and affiliations of the researchers, and the names of the company partners) to the following address by 17:00 ET on June 3, 2026: [appliquez-apply@cqdm.org](mailto:appliquez-apply@cqdm.org).
3. Submit the completed application to [appliquez-apply@cqdm.org](mailto:appliquez-apply@cqdm.org) by June 10, 2026.

### **SELECTION CRITERIA**

- Quality of research, relevance of methodology, feasibility
- Appropriateness of resources available and expenditure (budget)
- Commercialization plan
- Differentiation, competitiveness, and added value of the technology
- Benefits for the private partners
- Alignment between project and general industry needs, benefits for Canada

### **EVALUATION PROCESS**

The key evaluation steps are:

- An independent scientific evaluation based on the selection criteria listed above.
- A review of the non-scientific aspects of the project, including the level of commitment of the companies, the added value of the collaboration and the specific risks inherent to the project.
- The overall evaluation of the project by CQDM's scientific advisory board, which is responsible for making funding recommendations.
- Approval of the project by CQDM and Brain Canada.
- Approval of funding by the Ministère de l'Économie, de l'Innovation et de l'Énergie (MEIE).

The recipients will be notified in October 2026.

### **RESEARCH AGREEMENT AND INTELLECTUAL PROPERTY POLICY**

- The research institutions and company partners that will be awarded a research grant must accept the terms and conditions of CQDM and Brain Canada and commit to sign a research agreement within 3 months following the receipt of the CQDM's approval letter.

*Financial contribution from  
Avec le financement de*

Health  
Canada    Santé  
Canada

- CQDM will provide the template of the research agreement which will precisely define the milestones to be reached, the timeline (Gantt chart) and the deliverables at the end of the project.
- An intellectual property agreement in which CQDM and Brain Canada are not involved will also have to be signed by all the research institutions and company partners associated with the project and attached to the research agreement.

For any question regarding the eligibility of your project and for support, please contact **Mathieu Paquette**, Director - Business Development, Team Lead Quebec, at the following address: [mpaquette@cqdm.org](mailto:mpaquette@cqdm.org)
